Medicines leaflets and 'how to' videos available online,
developed by paediatricians and pharmacists
with consultation from parents, carers and young people

www.medicinesforchildren.org.uk

“How do I give the medicine to my child?”

“Could there be any side-effects?”

“What if I forget to give the medicine?”

The Medicines for Children website hosts information resources on over 220 paediatric medicines. All information is developed by experienced paediatric pharmacists and doctors, ensuring the resources are not only accurate and reliable, but that they address the main concerns of parents. Every 3 years the resources are reviewed by a team of medical professionals, with consultation from parents and carers.

Website user data

- 300,000+ users a month
- 4.5 million downloads of our medicines leaflets a year

Global audience

- UK 32%, USA 22%, India 13%, Philippines 5%, Australia 4%, Canada 3% and Malaysia 2% with users accessing our medicines information in all 196 countries of the world

Medicines for Children information leaflets provide a useful aid when talking to parents about their child’s medicines and are an excellent reference document for parents to take away or download at home.

If you are interested in giving us feedback on the website or to suggest ideas for further medicines leaflets or resources for families, please get in touch at medicines.leaflets@rcpch.ac.uk
